Which Model Will Work For You?

Model 100

Get the most out of life while sitting in your screen room by Sunspace. You create the design, we build to suit. Your screen room will now become a great place to entertain company, family get togethers or just to sit and relax without the bugs driving you inside.

Model 200

If you enjoy the open airy feeling of your existing deck, but want protection from bugs, the elements and harmful UV rays, the Sunspace WeatherMaster® System is what you're looking for. Made with 2" foam panels and aluminum extrusions, the walls incorporate the versatile WeatherMaster® 4-Track Vinyl Window and Screen System. Vents are glazed with ViewFlex, a tough, resilient vinyl, available in clear, smoke grey, dark grey and bronze. The window units effortlessly slide up or down allowing a generous 75% ventilation opening.

Model 300

A Model 300 sunroom by Sunspace is a bright addition to any RV. Sunspace 2" aluminum extruded insulated modular walls with single glazed glass gives the 3 Season Sunroom strength, stability and a virtually maintenance free exterior. Aluminum framed, double roller windows offering ventilation out of both sides of the window, with no fixed side as both sashes operate!

Model 400

Building on the Model 300 Sunroom, the Model 400 Sunroom takes you to a new level in comfort. By offering 3" extruded, insulated aluminum walls and double glazed windows, the it allows you to extend your seasonal enjoyment. With the Model 400, you will enjoy a new, high quality, customized and comfortable sunroom.

Our service is ranked among the best in the industry, with thousands of very satisfied customers who now enjoy their RV's even more. By approaching every project with professionalism, craftsmanship, dependability and the highest levels of quality control, ensures that your Sunspace purchase will be a worry free experience from start to finish.

Aluminum Construction

- ☀ Not effected by condensation, moisture or insects
- ☀ Aluminum construction - structural and code compliant
- ☀ Quality aluminum and vinyl windows
- ☀ Integrated laminated foam wall panels
- ☀ Custom size windows (reduced filler size)
- ☀ Custom backwall height
- ☀ Additional patio doors at no charge
- ☀ Virtually maintenance free interior and exterior

Why Aluminum Construction?

Sunrooms installed on RV's are subject to unique conditions. Due to the seasonal use, heating and cooling takes place as climate and temperatures change. This can result in condensation and moisture not normally experienced. For that reason Sunspace has constructed all of its sunrooms from extruded aluminum. Free from any wood product, this ensures years of maintenance free use, structural integrity and protection from unseen mold or mildew that can occur in wood.
